SAMPLING SOLUTIONS

"Simply The Best"

GRAB SAMPLE SYSTEMS

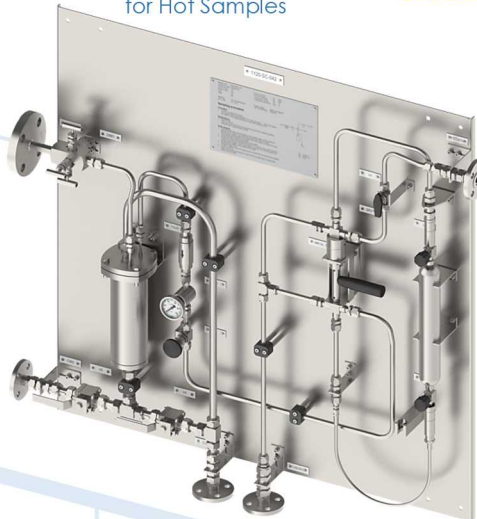

HYDROCARBONS, STEAM & WATER
For Liquid, Liquefied Gas, Flashing & Gas Samples

Closed Loop (emission free) Sampling

Sampler with Cylinder for Gas, Flashing Liquid or Hazardous Liquid Samples

Cylinder Type with Cooler for Hot Samples

SCS for Steam Samples

On/Off

Inline Sampler Flow Thru

Process Pipeline

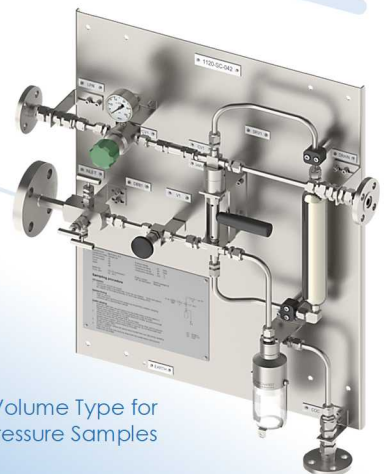

Bottle Type with Cooler for Hot Samples

Sampler with Bottle for Liquids (with Bypass) for Low Pressure & Temperature Samples

Fixed Volume Type for High Pressure Samples

Process Sample Cooler with Flanged Connection

- **Best modular and innovative liquid and gas grab sampling systems on the market with highest quality**
- Mechatest manufacture standard and customized grab sample system with sample bottles and sample cylinders, optional with Spring Return Handle on valves
- Completely SS316, wetted parts also in exotic materials or specific coatings (PTFE, Silcolloy, SilcoNert™2000)
- Bottle sampler for Schott Duran and Dopak bottles
- All configurations possible On/Off, with Process Back- or Needle Purge, Bypass, Fixed Volume, Flow Thru, Inline Wafer type, DB&B direct mount, with coolers or heaters etc.
